Dissection Tables & Sinks

- **SDS-100 Single Compartment Dissection Sink**

Design to be used with all of Scientek's mobile dissection tables, this sink combines all the necessary features required to complete any autopsy. The simple and efficient design allows for easy cleaning and durability.

- **SMT-1700 Mobile Dissection Table & Body Tray**

(Dimensions: 84" L x 30.25" W x 35.5" H)

- **SMT-1700AH Mobile Dissection Cart & Body Tray (Adjustable Height)**

(Dimensions: 84" L x 30.25" W)

A versatile, mobile body cart with its own stainless steel body tray, swivel, locking 8" casters, and heavy stainless steel construction for durability.

- **SDT-1800 Anatomy Dissecting Table**

(Dimensions: 84" L x 32" W x 35.5" H)

- **SDT-1800HC Anatomy Dissection Table with Hood Covers**

A basic dissecting table best suited for the anatomy class. Heavy duty gauge stainless steel welded construction allows for easier cleaning and durability. Table comes complete with all the standard classroom accessories.

- **SMAT-1982 Mobile Autopsy Table**

(Dimensions: 84" L x 32" W x 35.5" H)

- **SMAT-1982AH Mobile Autopsy Table (Adjustable Height)**

(Dimensions: 84" L x 32" W)

A basic, mobile autopsy table with movable body slat supports, movable head rest, removable drain container and large diameter swivel casters. This unit is designed for use in conjunction with the SWM-2500, SWM-3000 Dissection Stations and SDS-100 Dissection Sink.

- **SWM-2500 Wall Dissection Station – Sink at one end (Specify left or right)**

- **SWM-3000 Wall Dissection Station – Centre Sink**

A deluxe autopsy station with a built-in sink, dual work stations with sloped drain-boards, perforated drain trays, thermoplastic cutting boards, instrument drawers, gooseneck faucets, hydro aspirator with suction/rinsing features, and drain-board rinse nozzles and control valves.

All equipment is heavy gage welded sanitary type 304 stainless steel construction with large radius inside corners for easy cleaning. Manufactured without crevices, lapped edges, rivets, bolts or other fastening devices so that work surfaces remain smooth and prevent accumulation of bacteria.

Scientek custom manufactures various models of dissection stations to meet your specifications and needs.
