## O.R. Nurse's Fold Down Writing Desk SWD-200 Series

A recessed, wall-mount nurse's writing desk designed to fold back into the wall when not in use.

The SWD-200 writing desk is most suitable for use in O.R.'s or other areas where the efficient use of floor space is important.

Writing desk dimensions are: 750mm wide X 370mm deep (30" X 15"). Unit is constructed of 14 ga. T-304 stainless steel, all welded and ground to a polished finish. The SWD-200 is constructed in two pieces: the recessed pan and the fold down writing surface. The two sections are hinged with a heavy duty stainless steel piano hinge. A patented locking arm device supports the writing surface when it is in the down position and locks it when in it's up (folded) position. The writing surface is insulated internally with a styrofoam core to provide a sound deadening effect. The entire assembly is recessed into the wall when in the up position to give a streamline appearance.

### Features:

- Stainless steel construction throughout
- Fold up/down writing surface
- Stainless steel flush mount pull
- Patented locking arm device
- Preassembled in factory, ready for one step installation on job site

**\* Custom sizes available on request.**
